DEMAND TO STOP PUBLICATION OF APPLICATION

Assistant Commissioner for Patents
Washington, D.C. 20231

Assistant Commissioner:

I recently received a "Notice of New or Revised Projected Publication Date" in the above-identified application (a photocopy is attached). A non-publication request, however, was filed in this application. Examiner Myers (703.306.0396), in the Tech Center 2600 Customer Service Office, has verified that this non-publication request is in the file. Assignee demands, therefore, that the publication of this application be immediately stopped.

If the Office has questions, the Office is requested to contact the undersigned at (919)420-1768 or szimmerman@kilpatrickstockton.com.

Respectfully submitted,

NOTICE OF NEW OR REVISED PROJECTED PUBLICATION DATE

The above-identified application has a new or revised projected publication date. The current projected publication date for this application is 11/01/2001. If this is a new projected publication date (there was no previous projected publication date), the application has been cleared by Licensing & Review or a secrecy order has been rescinded and the application is now in the publication queue.

If this is a revised projected publication date (one that is different from a previously communicated projected publication date), the publication date has been revised due to processing delays in the USPTO or the abandonment and subsequent revival of an application. The application is anticipated to be published on a date that is more than six weeks different from the originally-projected publication date.

More detailed publication information is available through the private side of Patent Application Information Retrieval (PAIR) System. The direct link to access PAIR is currently <http://pair.uspto.gov>. Further assistance in electronically accessing the publication, or about PAIR, is available by calling the Patent Electronic Business Center at (703) 305-3028.

Questions relating to this Notice should be directed to the Office of Patent Publication at (703) 305-8283.
